Notes:

Two pictures of Maggie at Gough Road.

I don't know where the Auto Road Spring Company was I don't recognize it at all. The canal pictures are on the Birmingham and Fazeley Canal I think. I love the shot of the two blokes working the canal just with pulling power I saw them quite often I think they were carrying rubbish. Big Brum is the clock tower and Bell that was part of the former Town Hall, the view may be from Colmore Row.

The night shots around Century Square are a bit of a disaster with no flash and no tripod.

Dates:

Dates for night shots confirmed from Maggie's diary which confirms all the pictures as being taken in April.
