**Subject:**

Radiogram, Churchyard, Maggie.

**Notes:**

Do not remember where or when the Radiogram/Church yard images were taken although I do remember coming across the Radiogram. The pictures of Maggie was the first attempt to do some studio style portraits. We had an old grey scouting blanket nailed to the rafters in Gough Road to form the back drop and I picked up a couple of floor projecting lamps, one was infrared and the other ultraviolet, from a junk shop. Changed the bulbs for soft light and they became my modelling lamps.
