Fireplace - Burlington Arcade.

**Notes:**

Bit of an obsession going on here trying to get a decent image of fire and fireplace. Didn't really work. Pictures of Burlington Arcade very under exposed. Nothing much of interest to note I think except that Maggie appears to be emerging from a wall cupboard that has wallpapered inside but I seem to remember that was something often done in those days.

My diary shows travels with Kris & Carl on Sunday 22nd. Petticoat Lane "K & C not bothered", Dirty Dicks "excited", stalls "running round like kids (in) Disney Land - want want. Then went to ABC Shaftesbury Avenue to watch Lyndon Barry "I didn't know Kubrick was capable of such rubbish".

Slinky supermarket then walked with Kris and Carl around Piccadilly, Regent St. Soho, Haymarket, Trafalgar Square, Haymarket, Trafalgar Square and the Embankment.

"K & C grumble like mad in silence till go Caledonia (was on way to 73 stop @ first). View river, drinks etc. began oh joy ran me down no end. Girl, would be singer, joined in conversation. Angola / personal experience Gov't control information - Karl (stet) exceptionally naive. Taxi back."
