Subject:

Clissold Crescent - Kiss

Notes:

The kitchen at Clissold Crescent looks cruder than I remember it. It's a shame that there is so much blur in the pictures, must have been a very slow speed setting.

The other shots are of what was probably our only visit to the Hammersmith Odeon. I think we went to see the band Kiss on the recommendation of Martin Durham. Their stage show was very impressive, I don't remember much about the music except that it was loud. Maggie wrote "East coast USA band,,, Most spectacular stage show."
