Subject:

Days 6-9 Study of Satterthwaite.

Notes:

A study of the Sociology and Economy of a small Cumbrian Village (Satterthwaite) by a team of Post Graduate Certificate of Education students from Garnett College Roehampton. On Thursday 1st June, the fifth day of the study we travelled into Ulverston, the nearest large town and employment centre for market day. I think that in 1978 it was still possible to travel to Ulverston from Satterthwaite on market days. Searching the internet now it appears there are no buses at all and the recommended cheapest/fastest route is a taxi to Newby Bridge to catch the bus from there. This would be at a cost of around £54 return. The estimated cost of the journey by car is £6.00 return.

On the 6th day, Friday, we looked at the tourist offering in Grizedale Forest. The slow worm has proved to be not only the first that I ever saw but also the last.

I'm not sure what happened to the Saturday at all. The last few shots at the end of roll may also have been taken on the Sunday when we went to look at an Hound Trail meeting (roll 7114). Hound Trailing remains popular in Cumbria today,

People

Clifford W Fulford, Gerhard Wilke, Philip Naylor, Jeff Rosenberg and Mel. Accompanied by Maggie Hughes. Claire Croft-White, Gerhard's partner.

Dates:

The project ran from 27/5-10/6. The dates used on the frames are best guesses given the sequences of shots.

Frames:
