**Subject:**

Bonfire night

**Notes:**

As it turned out the last bonfire celebration that I was able to share with my sister Mary before she died of cancer in August 2018. 2018 was also the year that I was diagnosed with an aggressive prostate cancer. It was a splendid evening although my activity was limited as I was still recovering from surgery undertaken on May 21st. I think this was the year that Harry stepped forward as the main firework lighter.
