Camera: **Canon EOS 5D Mark III: E53**

Film: **Full frame digital**

Subject:

High Water and Snow

Notes:

Just another couple of walks along the Embankment and around the park during lockdown. Note the barrier tape around the play equipment one of the first stupid things the local authority did. I particularly enjoyed the sudden flurry of snow that stuck to everything including my walking stick. It of course melted away within a couple of days.
