**Subject:**

Grantham canal and Sutton Ashfield pretty bits.

**Notes:**

There are two sessions along the Grantham Canal, one in the early evening where the light was not good and one in the morning where it was much better and I took on the challenge of getting very close up on a Mute Swan. Further up the canal I managed to get quite close to a pair of Mallard ducks too.

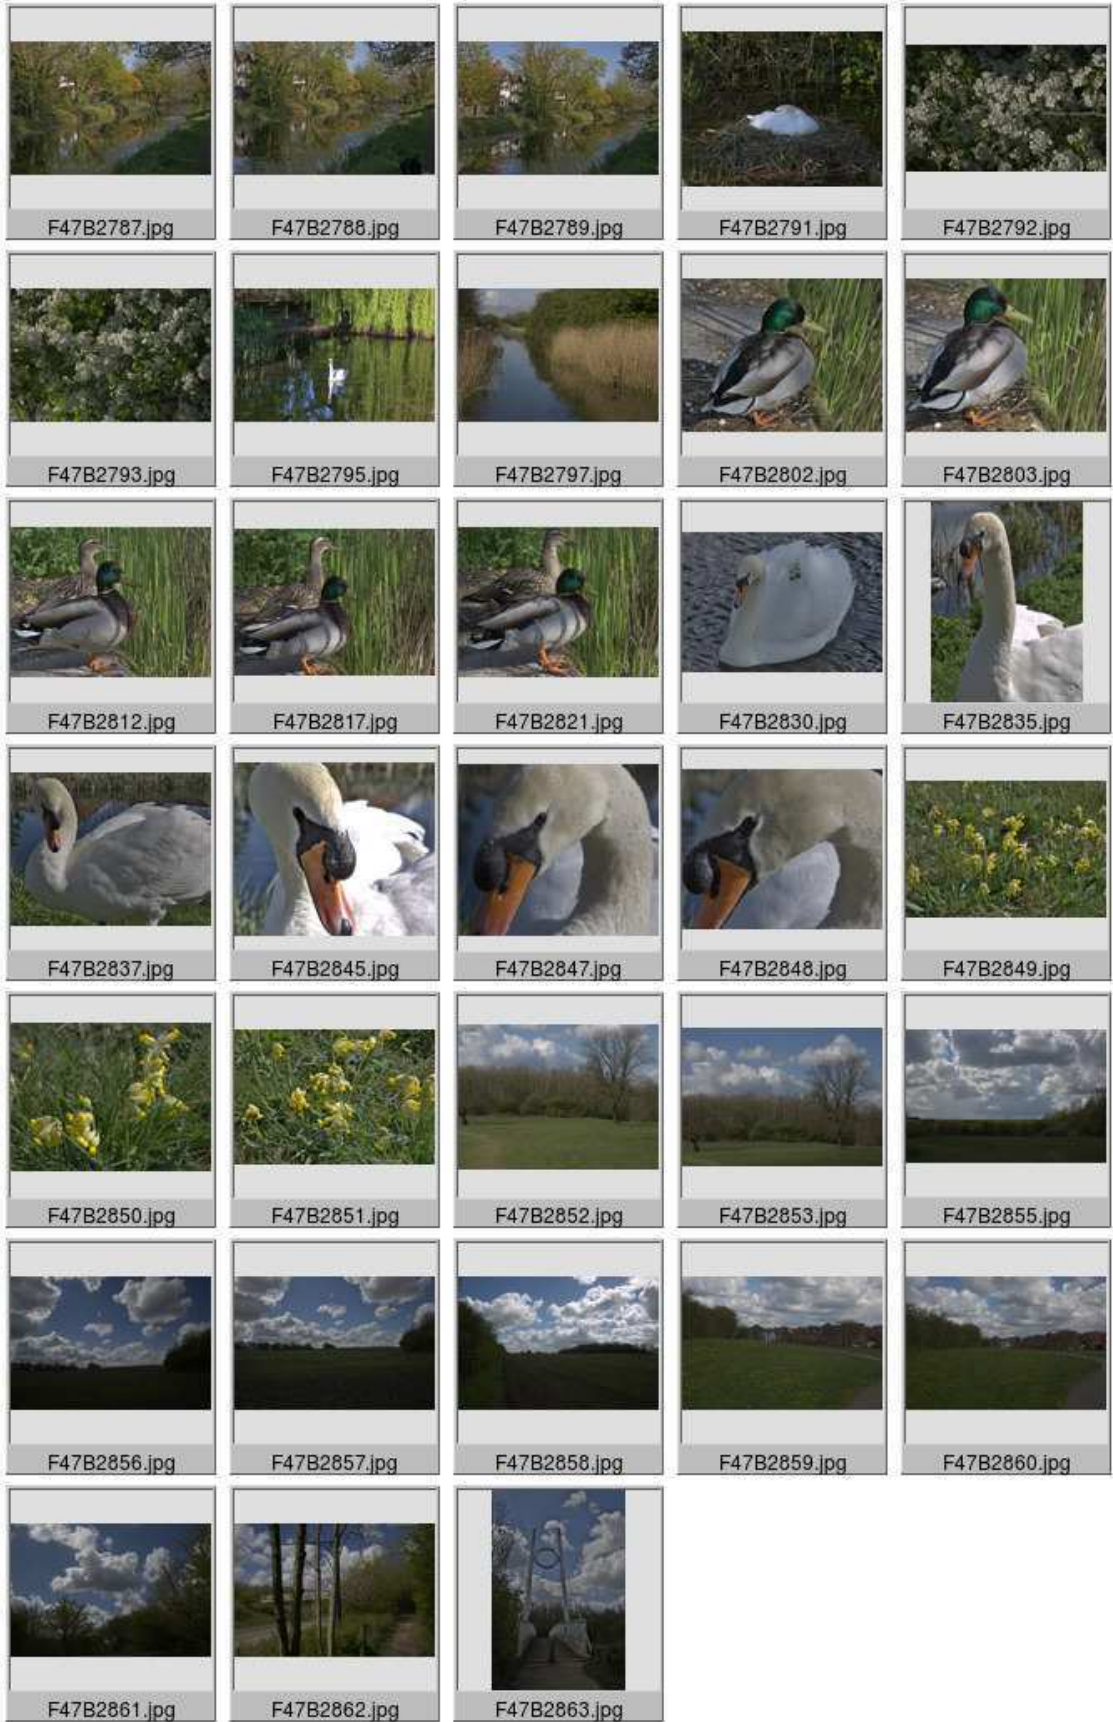

The visit to Sutton Ashfield was to take my brother Royston to Available Car in Orchard Close on the Calladine trading estate to complete his purchase. While he was doing this I went for a walk with Max over the Calladine footbridge to some very nice woods and meadows on the other side of the A38.
