Subject:

Nottingham City Centre in the Rain.

Notes:

A wander around town in the rain. There were not many people about and many shops had closed down. The weather will have dampened spirits but I think it is pretty clear that the post 'lock down' recovery is sluggish at best.

The recorder player was chatty and informative. He is loosing his lower range hearing and has switched to playing the treble recorder because the lowest note is middle C so he can hear what he's playing. He pointed out a house opposite on Bridlesmith Gate which he was told by his brother is the oldest in the street.
