Subject:

U3A Peak Walks - Whatstandwell - Crich Stand - Crich

Notes:

A tiring walk with some very steep climbs. Have skirted around Crich and Upper Holloway some years before but had not visited Crich Stand. The monument has a lighthouse light and revolving mirror at the top and some very good views, remarkable really that it's open to the public and unsupervised.

My knees were complaining by the end of the walk and I was pleased to stop. Couldn't stop for lunch as driving immediately afterwards to Sheffield to pick up Joseph who was coming home for a week to take driving lessons and his test a week on Friday.
